loll designs is outdoor furniture for the modern lollygagger

Made in the USA with recycled post-consumer plastic, Loll's modern outdoor furniture adds a unique and modern aesthetic to outdoor spaces. Founded on principles of efficient and responsible use/reuse of manufacturing materials, Loll was conceived as a way to repurpose excess skate ramp material from our former company, municipal skatepark creator, TrueRide. Loll began by creating a modern Adirondack chair with the durable skate-proof material that was proven to require no maintenance and hold up in all weather conditions. Appreciate the outdoors with maintenance-free furniture made by Loll Designs.

what makes a loll chair?

Maintenance Free

No painting, sanding, staining, or sealing required.

Weatherproof

Leave Loll products outside year-round!

Easy To Clean

Non-porous surface of HDPE material that will not harbor dirt or mold.

Replaceable Parts

Component parts can be removed and replaced if damaged.

Bottle Opener

Integrated stainless steel bottle opener hidden under right arm just in case you get thirsty.

Comfortable

Designed with angles in all the right places, our chairs are built to provide optimal comfort. Plus with many height variations and the option to rock, you'll be sure to find the right fit for you.

Durable

Conceived as a way to repurpose excess skate ramp material, Loll chairs are durability tested and fade resistant.

Sturdy

Tested for durability, structure + longevity, Loll chairs withstood a 500+ lb load without failure to ensure years of safe sitting.

Hidden Fasteners

Loll's unique hidden fastener system allows for all hardware to be hidden from view.

nisswa collection

Minnesota may be known for snow and cold, but it is also the land of 10,000 lakes. The summers are warm and gorgeous, especially near a popular lake area in north-central Minnesota known as Nisswa. We named the Nisswa Collection in the spirit of the cabin life experienced there.

outdoor dining

What's important when we dine outside? Sun, fresh air, a quenching beverage, great food, and of course, good friends. Loll offers a variety of outdoor dining options, so you don't have to worry about what's not important, like maintenance and refinishing metal or wood. A variety of shapes and sizes will accommodate any space. No backyard would be complete without a place to dine outside, and Loll will put you there.

With 100% recyclable material, and design dedicated to durability and longevity, we are committed to being a part of the circular economy and keeping our products out of the landfill.

We always strive to understand our impact on the environment, our employees, and our community, and the Cradle to Cradle® certification process validated all we do to enhance these aspects of our company. Attaining this certification is a rigorous process, and no stone is left unturned as our company and our supply chains are thoroughly investigated every two years. Throughout the process, we are evaluated on five categories including material health, material reutilization, renewable energy/carbon management, water stewardship, and social fairness. All our HDPE products have an overall Cradle to Cradle Certified SILVER™ rating, with a GOLD™ rating in the material reutilization category.

Cradle to Cradle Certified™ is a certification mark licensed by the Cradle to Cradle Products Innovation Institute. Learn more about Lol's Cradle to Cradle to certification at lol designs.com/cradletocradle

materials are the details

At Loll, we strive to provide a variety of color options carefully selected to enhance any space and still work well together if mixed. Technically, our curated high-performance HDPE colors are designed to perform outside with a UV additive formulated for reduced surface degradation and fading caused by sunlight and other UV light sources. Loll furniture has consistent weathering performance that will last for years outside and remain vibrant. See for yourself, order free material samples at loll designs.com/materials-sample-request.

chaise lounges

The 405 and Lollygagger Chaise Lounges are designed to work exceptionally well in the sun and near the pool. Both are made from ultra-durable HDPE that is ready to handle wet conditions, lotions, and spilled beverages, plus heavy enough to ensure they will not blow into the pool. The backs adjust to multiple angles, so when you need a break from the action, these loungers accommodate your mood swings without asking questions.

planters + containers

Great for delineating spaces or adding flora to your outdoor oasis, these planters are durable and able to survive even the toughest weather conditions. In all shapes and sizes, from 8 gallons to 80 gallons, Loll planters will take all kinds of greenery. Most have a movable interior shelf to reduce the amount of soil needed.

keeping things tidy

Loll's storage options offer practical seating and storage solutions. These products will help organize that pile of shoes by your entryway, the drippy umbrellas, the scattered toys, that bag of puppy chow, or even keep your favorite drinks cold. Made with durable and easily cleanable recycled plastic, that winter salt and summer dust have no chance.

meet lisa

a modern lollygagger

Lisa has spent the past 14 years remodeling her dream home in Napa Valley and “Loll has definitely played a part in the transformation.” She and her partner began their lounge-affair with two Lollygagger Lounge Chairs, then added a pair of Cabrio Chairs, and a Nisswa Sofa, all in Sunset Orange to complement their stunning vistas. As Lisa says, “Loll furniture seems quite at home in wine country!”

we are loll

Made in the USA with recycled plastic, Loll’s modern outdoor furniture adds a unique and modern aesthetic to outdoor spaces. With sustainability ethics in mind, Loll aims to play a role in a circular economy where plastics made will be recycled continuously, thus reducing waste. Did you know all Loll products can be recycled at the end of their life? We were founded on principles of efficient and responsible use/reuse of materials, which is why during the production process, we recycle more than 88 percent of our manufacturing waste, and the remainder incinerated to make electricity. Striving towards zero waste has created recycling programs for anything that can be recycled. It’s impossible not to leave an environmental footprint, and we do all that we can to mitigate it while making maintenance-free furniture so you can appreciate the outdoors!
